Superior Design and Manufacturing Expertise

Leveraging a complete line of hoists, standard platforms, and rigging solutions, Power Climber has designed thousands of custom solutions for the most challenging applications. From concept through engineering, manufacturing, and delivery, Power Climber's team of experts will work closely with you to ensure your unique access requirements are met.

In-house engineering and design expertise with seven decades of experience

Interactive solution development in collaboration with customers

ISO 9001:2008 certified quality systems

Checklist-driven inspection and service procedures

Global service and support through our reliable network of factory-trained dealers and technicians

Customized application training materials and in-house trainers

Members of EN 1808 Committee

Custom solutions for the most challenging

We strive to make you
more productive
in ways you value:

Increased uptime

Better productivity

Lower total cost of ownership

Safer operation for your employees

Double Decked Angled Platforms

Configured from 9 m to 15 m with specially designed corners to allow for challenging access for curtain wall installation, caulking, waterproofing, and other commercial building maintenance or construction

Circular Platforms

Standard Modulo platforms along with custom designed components can be configured into straight, angled, curved, or circular work platforms to provide access to a variety of structures including stacks, boilers, and wind towers.

Multi-Angled Platforms

Modulo Platforms provide versatility and precision to safely and productively access the challenging work surfaces of refineries and other structures requiring multiple access points.

ing access projects, backed by specialized e

ENERGY

SPECIAL APPLICATIONS

Made in our ISO 9001 factory in Antwerp, Belgium.

We design, manufacture, and distribute the highest quality hoists and suspended access systems in the market.

Service available world wide through our network of Power Climber dealers.

Worldwide Delivery, Operation, Installation, Support, and Service

At Power Climber, we understand that equipment reliability improves profitability. Our capabilities of serving customers across the world combined with rigorous product development, engineering, and approval processes are proof that our products deliver a more reliable experience.

Regardless of your location, Power Climber can deliver standard or custom engineered solutions to meet the most unique requirements, and we back them up with aftermarket support that is the best in the business.

Power Climber

Power Climber has been engineering and manufacturing hoists, platforms, rigging equipment, safety gear, and accessories for the suspended access industry since 1972. With facilities in North America, Europe, and Asia, Power Climber distributes its products to leading rental dealers, facility owners, and contractors around the world, and backs them up with industry-leading training, customer service, and support.
